WHEREAS, the City Treasurer is authorized to conduct Treasurer's Sale

delinquent in City and School taxes because of unemployment and the national depression.

If the property owner fails in this class, a special category of property be established by the Treasurer that deletes that property from the Treasurer's Sale as long as the owner make some minimal payment of the delinquent tax.

No. 160. RESOLUTION amending Resolution No. 285, approved March 31, 1982 and effective April 5, 1982, entitled, "Providing for an agreement or agreements for professional services in connection with the Clean Community System Program of Keep America Beautiful, Inc. and providing for the payment of the cost thereof", by providing for an increase in the appropriation therefor from Thirty-Five Thousand (\$35,000.00) Dollars to Seventy Thousand (\$70,000.00) Dollars.

BE IT RESOLVED BY THE COUNCIL OF THE CITY OF PITTSBURGH AS FOLLOWS:

SECTION 1. Section 1 of Resolution No. 285, approved March 31, 1982 and effective April 25, 1982, which presently reads as follows:

"Section 1. The Mayor, on behalf of the City of Pittsburgh, is hereby authorized to enter into an agreement or agreements in a form approved by the City Solicitor, for professional services for the administration of the Pittsburgh Clean Community System Program of Keep America Beautiful, Inc.

These services will be provided in connection with the Pittsburgh Clean Community System Program at a cost not to exceed \$35,000.00, chargeable to and payable from the

Mayor's Miscellaneous Services Account, Code Account No. 1017."

is hereby amended to read as follows:

Section 1. The Mayor, on behalf of the City of Pittsburgh, is hereby authorized to enter into an agreement or agreements, in form approved by the City Solicitor, for professional services for the administration of the Pittsburgh Clean Community System Program of Keep America Beautiful, Inc.

These services will be provided in connection with the Pittsburgh Clean Community System Program at a cost not to exceed Seventy Thousand (\$70,000.00) Dollars, chargeable to and payable from the Mayor's Miscellaneous Services Account, Code Account No. 1017.

SECTION 2. Any Resolution or Ordinance or part thereof conflicting with the provisions of this Resolution is hereby repealed so far as the same affects this Resolution.

Passed February 21, 1983.

Approved February 28, 1983.

Recorded February 28, 1983.

No. 161. RESOLUTION amending Item (E) of Resolution number 703, approved July 19, 1982, which authorized the sale of property in the 20th Ward, being a 2 Story, Frame house and 2 Lots on Junius Street, designated as Block 18-C, Lots 100-107 & 109, to Al D'Angelo, for the sum of \$7,000.00.

The reason for the above Amendment is that the Title Search revealed that the City does not have a marketable Title to parcel 18-C-100 as it was not properly acquired. Property must be returned to the Assessment records to be properly re-acquired.

Therefore, parcel number 18-C-100 is hereby deleted from the sale and the price of the sale reduced from \$7,000.00 to \$6,750.00 to reflect the deletion of the parcel.

All else in Item E of Res. # 703 of 7-19-82 shall remain the same and in effect.

SECTION 1. Any Resolution or Ordinance or part thereof conflicting with the provisions of this Resolution is hereby repealed so far as the same affects this Resolution.

Passed February 21, 1983.

Approved February 28, 1983.

Recorded February 28, 1983.

No. 162. RESOLUTION amending Item (I) of Resolution number 1172, approved November 24, 1982, which authorized the sale of property in the 31st Ward, being vacant land on Armorhill and Mestaland Avenues, designated as Block 90-R, Lots 120-121-122-123-125-126-127; 166-167-168 & 169, to Kathryn Sullivan and Kathleen Terbosic, for the sum of

\$4,000.00

The reason for the above Amendment is that it was discovered that the City of Pittsburgh does not have a marketable Title for parcel 90-R-167, as it was improperly taken. This parcel must be returned to the Assessment records to be properly re-acquired at a later date.

Therefore, parcel 90-R-167 is hereby deleted from the sale, and parcel 90-R-128, a lot having identical dimensions will be added to the sale in lieu of parcel 90-R-167.

Following is a description of parcel 90-R-128: 31st Ward of Pittsburgh,

Lot 25 X 100 Mestaland Avenue,
New Homestead Plan # 267.
Acquired from :

John Barna & Mary Barna or Barno.
June 1, 1953. T.D.B.V. 9, P. 32.

Also designated as Block 90-R, Lot 128.

All else in Item (I) of Res. # 1172 of 11-24-82 shall remain the same and in effect.

SECTION 1. Any Resolution or Ordinance or part thereof conflicting with the provisions of this Resolution is hereby repealed so far as the same affects this Resolution.

Passed February 21, 1983.

Approved February 28, 1983.

Recorded February 28, 1983.

No. 163. RESOLUTION repealing Item (H) of Resolution number 701, approved July 29, 1980, which authorized the sale of property in the 13th Ward, being a vacant lot at 7600 Mulford Street, designated as Block 175-B, Lot 12, to Charles Harris and Elsa L. Harris, his wife for the sum of \$250.00.

The reason for the above Repealing Resolution is that it was discovered during the Title Search that the City of Pittsburgh did not have a marketable Title for this parcel, as it was not properly acquired. It was necessary that the parcel be returned to the Assessment records, and was properly re-acquired in the June, 1981 Treasurer's sale. Parcel is being sold to the proposed purchasers.

THEREFORE, Item (H) of Res. # 701 of 7-29-80 is hereby repealed.

SECTION 1. Any Resolution or Ordinance or part thereof conflicting with the provisions of this Resolution is hereby repealed so far as the same affects this Resolution.

Passed February 21, 1983.

Approved February 28, 1983.

Recorded February 28, 1983.

No. 164. RESOLUTION repealing Resolution number 1215, approved October 18, 1978, which authorized the sale of property in the 13th Ward, being a 2 Story, Double Brick house, located at 7412-14 Tioga Street, designated as Block 175-B, Lot 107 to Douglas Design Supply Co. (Assigned to Paul K. Taylor and Ernestine Watts Taylor, his wife) for the sum of \$1,500.00.

It was necessary that the property be returned to the Assessment records. The property was re-acquired in the October 18, 1982 Treasurer's Sale, and will be sold to the proposed purchasers.

THEREFORE, Resolution number 1215 of 10-18-78 is hereby repealed.

Passed September 26, 1983.

Approved October 3, 1983.

Recorded October 3, 1983.

No. 864. RESOLUTION repealing Item B of Resolution number 311, approved May 6, 1983, which authorized the sale of property in the 3rd Ward, being a 2 Story, Brick house located at 201 Wick Street, designated as Block 11-E, Lot 235, to Albert W. D'Angelo for the sum of \$800.00.

The reason for the above Repealing Resolution is that the building was destroyed by fire, and the purchaser is requesting the return of his hand money.

Therefore, the sale is hereby repealed and the hand money of the purchaser, Albert W. D'Angelo, in the amount of \$100.00 will be returned by the Department of Lands and Buildings.

SECTION 1. Any Resolution or Ordinance or part thereof conflicting with the provisions of this Resolution is hereby repealed so far as the same affects this Resolution.

Passed September 26, 1983.

Approved October 3, 1983.

No. 865. RESOLUTION amending Item A of Resolution number 506, approved July 1, 1983, which authorized the sale of property in the 3rd Ward, being vacant land on Bedford and Rowley St. designated as Block 9-M, Lots 295, 296, 297 & 298, to Brenda Tate, for the sum of \$900.00.

The reason for the above Amendment is to correct the amount of the cost of sale from \$256.26 to \$298.76 in parcel A-2 of the above captioned sale. Both the Proposal and the Resolution should read: Cost to acquire - \$298.76. Block & Lot for this parcel is 9-M-296.

All else in Item A of Res. # 506 of 7-1-83 shall remain the same and in effect.

SECTION 1. Any Resolution or Ordinance or part thereof conflicting with the provisions of this Resolution is hereby repealed so far as the same affects this Resolution.

No. 866. RESOLUTION Amending Item C of Resolution Number 226, approved April 11, 1983, which authorized the sale of property in the 20th Ward, being vacant land on Banksville Avenue, designated as Block 36-R, Lot 319 and Block 36-S, Lot 1, to William F. Kamauf, for the sum of \$5,000.00.

The reason for the above Amendment is that it has been revealed from our Tax Liens Office that one of the parcels that comprise 36-S-1 is not marketable,

since, according to their records, this lot, described as (37 X avg. 115.5 X 64 Rear Banksville Avenue) has already been sold.

Therefore, the second lot of parcel 36-S-1, as described above, will be deleted from the sale, and the price of the sale reduced to \$3,900.00 to reflect the deletion of this lot.

All else in Item C of Resolution number 226 of April 11, 1983 shall remain the same and in effect.

SECTION 2. Any Resolution or Ordinance or part thereof conflicting with the provisions of this Resolution is hereby repealed so far as the same affects this Resolution.

The reason for the above Repealing Resolution is that on eof the lots - parcel - 90-R-167 was found to have a defective Title and could not be sold. This lot was to be re-acquired by the City. It was not re-acquired. Since this lot is essential to the development plans, the purchasers do not want the

property without it, and are requesting the return of their hand money.

Therefore, Item I of Res. # 1172 of 11-24-82 is hereby repealed and the hand money of the purchasers, Kathryn Sullivan and Kathleen Terbosic, in the amount of \$500.00 will be refunded by the Department of Lands and Buildings.

The reason for the above Amendment is to correct the Ward number from 28th to 16th. The Ward number on both the Proposal and the Resolution should be the 16th Ward.

All else in Item I of Res. # 566 of 7-15-83 shall remain the same and in effect.

Lott III and Dorothy R. Lott, his wife, for the sum of \$3,000.00.

The reason for the above Amendment is to correct the spelling of the name of the former owner from McAmulty to

McAnulty. Both the Proposal and the Resolution should read: Acquired from Hanna May McAnulty.

All else in Item J of Res. # 572 of 7-29-83 shall remain the same and in effect.

SECTION 1. Any Resolution or Ordinance or part thereof conflicting with the provisions of this Resolution is hereby repealed so far as the same affects this Resolution.

No. 965. RESOLUTION Amending: Item A of Resolution No. 72, approved February 15, 1983, which authorized the sale of property in the 4th Ward, located at 2134 Fifth Avenue, designated as BLock 11-K, Lot 56, to Anthony F. Williams, for the sum of \$1,500.00.

The reason for the above Amendment is that it was disclosed during the Title Search that the City of Pittsburgh does not have a marketable title for all of the subject property; only for a part of the property in question, the part that fronts on Watson Street. The property located at 2134 Fifth Avenue, Block & Lot - 11-K-56 A is privately owned. Also, the size of the parcel being sold to Anthony F. Williams should be 20.02 X 56.69 instead of 20.02 X 113.25, and the address listed as Rear Fifth Avenue or Watson Street.

Therefore, the price of the property will be reduced to \$500.00 to reflect the above amendments.

Inc. for the sume of \$57,700.00.

COMMISSION ON HUMAN RELATIONS

The Commission on Human Relations administers the City's fair practices provisions of the City Code which make it unlawful to discriminate on the basis of race, color, religion, ancestry, national origin or place of birth, sex, and non-job related handicaps or disability in employment, housing and public accommodations. Such complaints are designated as "formal" and may be filed by an individual or organization claiming to be aggrieved by an alleged discriminatory act. The Commission may also initiate complaints in its own name.

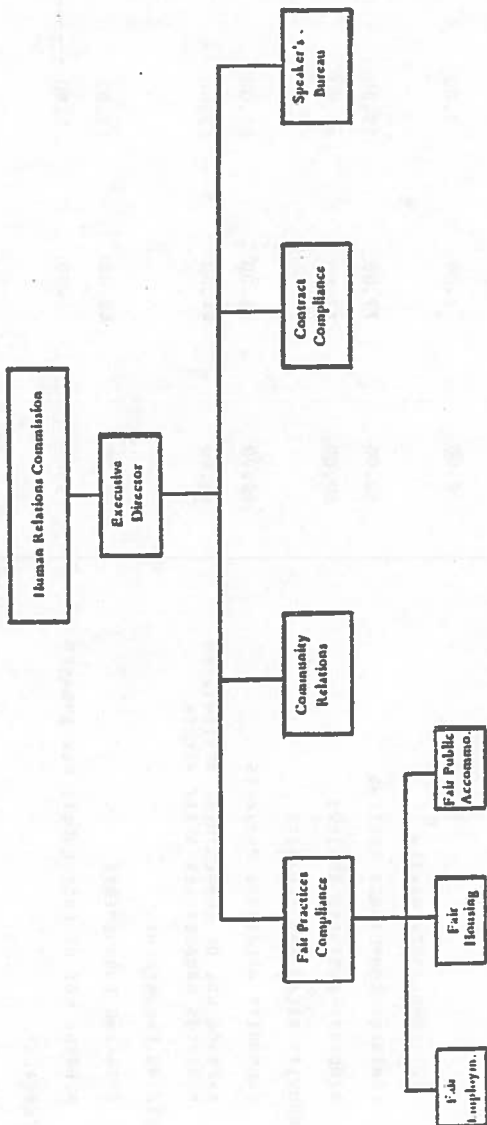

Formal complaints are investigated by the staff and reported to the Commission for decisions. Where discrimination is found to exist, attempts are made to seek a satisfactory adjustment by voluntary conciliation. When conciliation fails, the Commission may hold public hearings, issue orders and otherwise seek legal enforcement of its decision.

In addition to formal complaints, the Commission is mandated to study and investigate conditions having an adverse effect on intergroup relations in the City of Pittsburgh. Accordingly, the Commission maintains projects in community relations to attempt settlement of disputes or problems involving prejudice, intolerance or intergroup tension.

The Commission, through its Contract Compliance Specialist, monitors bidders for construction contracts with the City to determine whether they comply with Equal Opportunity and Affirmative Action provisions required by law. The Contract Compliance Specialist, by Executive Order of the Mayor, also coordinates activities to assure minority business participation in construction contracts let by the City.

Commission members and staff participate in speaking engagements and similar public information and technical assistance activities to effectuate the goals of the Human Relations Ordinance.

SUMMARY

DEPARTMENT OF FINANCE

The Department of Finance is headed by the Director of Finance who is appointed by the Mayor. The Department is responsible for all financial affairs of the City which are given to the Administration by the Home Rule Charter.

Within the Department of Finance is the Treasury Division which serves the City and School District of Pittsburgh. The Treasury Division bills and receives all revenues due the City and School District and reports all funds to the City and School Controller.

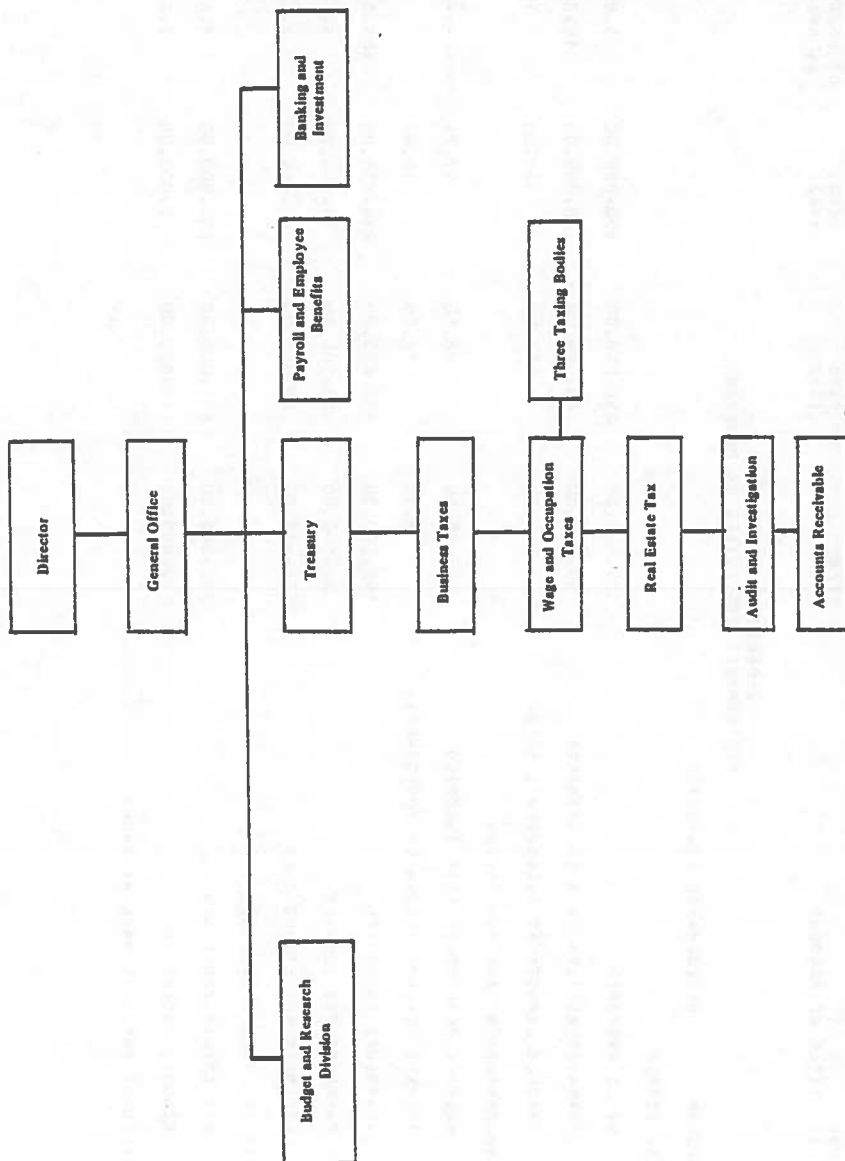

The Department of Finance invests all City funds to maximize interest earnings on available cash and manages the debt of the City. The Department also serves as the payroll office for all City employees and administers the fringe benefit program. The Budget and Research Office monitors the capital and operating budgets and serves as staff to the Mayor in the preparation of the operating budget.

Three important organizational changes are proposed for 1984. First, an Accounts Receivable Section is being created to improve the management and collection of delinquent accounts and accounts being paid on a regular basis.

Second, the Office of the Collection of Delinquent City and School Tax Liens is being moved to the Law Department. This change will improve and concentrate the coordination of legal activities against delinquent taxpayers.

Third, to centralize real estate activities, the Three Taxing Bodies Section is being transferred from the Department of Lands and Buildings. This Section maintains and disposes of property owned by the City of Pittsburgh, the County of Allegheny and the School District of Pittsburgh.

DEPARTMENT OF LAW

The Department of Law acts as attorney for the City and its officials. Headed by the City Solicitor, who supervises a staff of attorneys, investigators, stenographers and clerks, the Department renders legal opinions and advice to the Mayor, City Council and the various City Departments.

The Law Department represents the City in court actions involving damage claims against the City and in other actions, including the defense of ordinances against allegation of unconstitutionality; civil rights actions; suits for collection of taxes; enforcement of such ordinances as the Zoning, Building and Traffic Codes; damage claims by the City against persons who have damaged City property or equipment; eminent domain cases dealing with the taking of property for public purposes; and intervention in tax assessment matters to help insure fair valuation of taxable real estate. The Department participates in Worker's Compensation and Civil Service cases, as well as police and fire trial boards.

The Law Department represents the interest of Pittsburgh citizens in proceedings before such regulatory agencies as the Public Utility Commission and the Milk Marketing Board, by seeking to protect the City and its citizens against excessive gas and electric utility rates and milk prices. The Department has opposed efforts by railroads to reduce essential service to the City.

Through its Claims Division, the Department processes claims and recommends payment or settlement in proper cases. The Law Department is responsible for the filing and revival of liens and for the drafting or approval of proposed ordinances, resolutions, deeds, leases, contracts, legal pleadings and briefs.

DEPARTMENT OF CITY PLANNING

The Department of City Planning functions under a nine-member City Planning Commission which is appointed by the Mayor. Planning Commissioners serve without pay for six-years staggered terms. The main function of the Department of City Planning is to make recommendations to the Mayor and Council on the allocation of resources to promote the orderly development and redevelopment of the City. The resources with which the Department deals primarily are private land, which is controlled through zoning and subdivision regulations, and public funds for physical construction, which are controlled through the Capital Program.

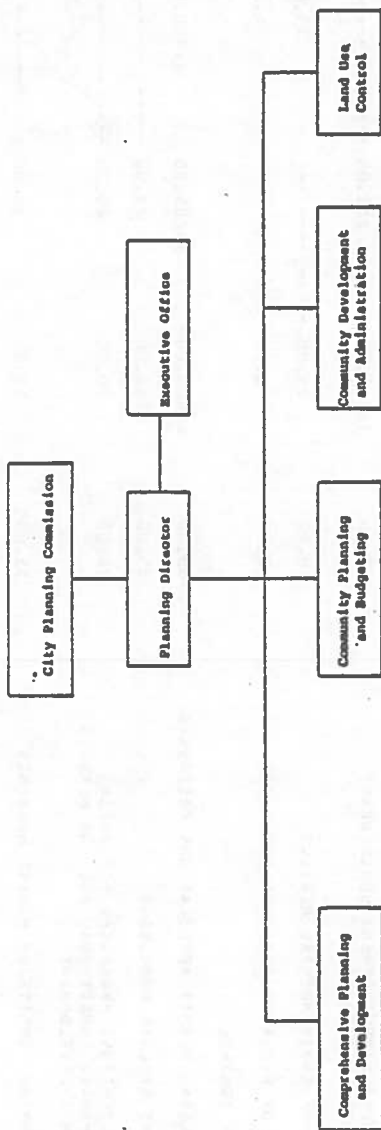

The Commission is required by law to prepare and adopt a Master Plan. This requirement is met through the annual publication of a Six-Year Development Program, which combines in a single document the long-range plans for the City, the current policies and programs for implementing those plans, and a recommended Six-Year Capital Program of specific projects. In addition to the Six-Year Development Program, the Department also assists the Mayor in the preparation of an annual Capital Budget and the Community Development Program.

To fulfill its comprehensive planning responsibilities, the Department undertakes planning studies in various functional areas, including: housing, environment, transportation, recreation and economic development. This work includes liaison with other City and governmental agencies and the monitoring of consultant studies. The Department also has been responsible for the development, administration, monitoring and evaluation of the Community Development Block Grant Program.

The Department has responsibility for administering the Zoning Ordinance and sub-divisions regulations. Development proposals requiring zone changes are reviewed by the planning staff and recommendations are made to the Planning Commission for its consideration. Variances, special exceptions, and interpretations of the Zoning Ordinance are made by the Board of Adjustment, a three member board appointed by the Mayor with the approval of City Council.

The Department provides an ongoing mechanism for community participation through its community planning program. A professional planner is assigned on a full-time basis to each of a number of the large residential districts within the City. This planner serves as prime liaison between the local community and the City Planning Department, as technical assistant to local neighborhood groups, and as development coordinator and expeditor of public activities within the community. This mechanism has permitted community groups and individuals to have a voice in the most important recommendations made by the City Planning Commission, including those on the Capital Budget and on the Community Development Block Grant Program.

DEPARTMENT OF ENVIRONMENTAL SERVICES

The Environmental Services Department is responsible for helping City residents maintain a clean, aesthetically appealing, and healthy environment. The Department has four operating divisions designed to obtain its goals.

- Residential Solid Waste Collection and Disposition
- Vacant Lot and Hillside Maintenance
- Animal Control
- Rodent Control

The Residential Solid Waste Division collects and disposes of household solid wastes on a weekly basis.

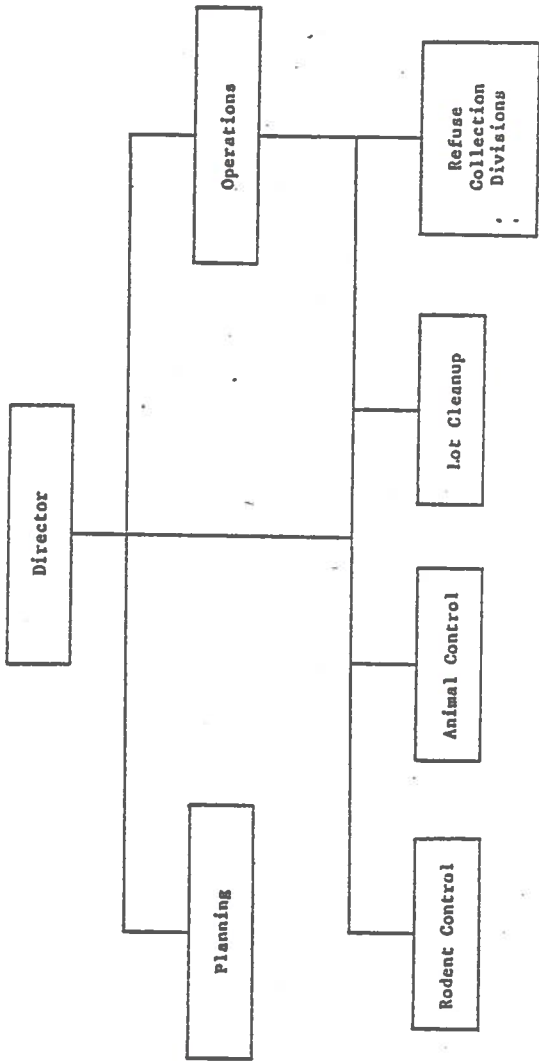

The Vacant Lot Maintenance Division cleans and removes solid wastes from vacant lots and hillsides, in addition to cutting down weeds and grass.

The Animal Control Division is responsible for the enforcement of the Ordinances governing the City's animal population and animal owners.

The Rodent Control Division has the responsibility of advising the general public on the connection between a neglected environment and rodent infestations, along with monitoring the public's compliance with the City's Code of Ordinances governing solid waste management. In addition, the Rodent Control Division provides for the placement of rodenticides.

These four divisions constitute the major functions of the Environmental Services Department, thus reflecting its purpose: striving for a clean and healthy environment. With the cooperation of the citizens of Pittsburgh, the Department is constantly seeking ways to improve its services and be a better asset to the City and its people.

DEPARTMENT OF EMERGENCY MEDICAL SERVICES

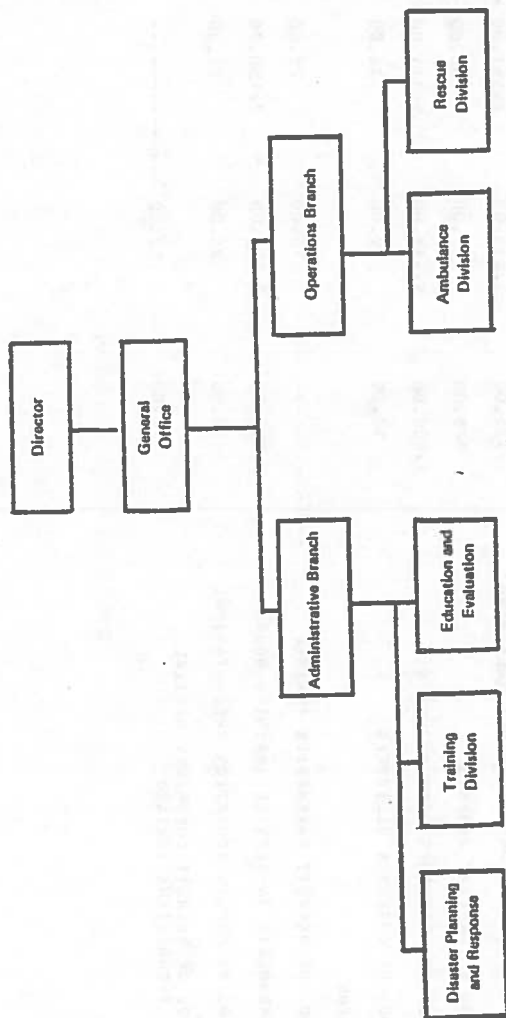

This Department provides the citizens of Pittsburgh an Emergency Medical Services (EMS) system capable of providing the latest advances in basic and advanced life support, rescue, and transportation to those citizens critically ill or injured. To achieve this purpose, the Department provides an EMS system comprised of two basic branches: Operations and Administrative.

The Operations Branch provides the actual patient care, rescue, and transportation services for sick and injured residents. These services are performed by utilizing 163 Paramedics, 24 Emergency Medical Technicians, and 25 Administrative and support personnel, all who are highly trained with the most advanced techniques in pre-hospital emergency medical care and rescue. This high level of training gives the Department's personnel the capability of administering life sustaining treatment to the victim of an accident or sudden illness. Furthermore, rescue training gives the personnel the capability of safely rescuing victims from almost all forms of entrapment. Finally, transportation is provided in 11 advanced life support ambulances known as mobile intensive care units and 4 basic life support ambulances. Rescue service is provided by two units fully equipped to utilize the most current rescue practices.

The combination of highly trained Paramedics and Emergency Medical Technicians staffing vehicles which have been nationally recognized for their design specifications and medical care capabilities has made this relatively young Department one of the finest in the country.

The Administrative Branch provides disaster planning and response, medical training, system evaluation and public education. Disaster planning and response is responsible for designing an organized plan for emergency operation of the Department to meet the increased demands of a disaster situation. Medical training is responsible for maintaining the high level medical skills of presently employed personnel through continuing education classes in addition to training new personnel that are hired. System evaluation is responsible for evaluating patient care and general performances by Paramedics and Emergency Medical Technicians including the operations branch as a whole through a comprehensive quality assurance program. Public education is responsible for a function that completes and complements the total service system: providing education to Pittsburgh residents on what to do before the ambulance arrives. This education includes Cardiopulmonary Resuscitation (CPR) and basic first aid. Through the efforts of the Department's medical personnel responding to a resident in need of services along with family or neighbors providing CPR and basic first aid until the unit arrives, Pittsburgh's EMS system will be ideally operating to achieve its purpose of reducing mortality and morbidity due to accident and sudden illness. Our new streamlined billing system has increased income 30% since implementation, helping us to offset the cost of quality emergency medical care provided for our citizens.

DEPARTMENT OF FIRE

The Fire Department, through 69 fire fighting units housed in 38 stations throughout the City, provides fire protection and fire prevention services to the citizens of Pittsburgh.

All units are equipped with the tools necessary to function as an effective and efficient fire fighting force. While fire suppression is the basic function of the Department, Firefighters also conduct block inspection programs, inspect local residential and commercial buildings, assist in arson investigations, carry out rescue operations, and conduct evacuation drills in cooperation with the Fire Prevention Division.

As mandated by the National Fire Prevention and Control Commission, the Department has a Fire Prevention Division whose personnel inspect all large commercial, industrial, and institutional structures for fire hazards, review building plans for compliance with the Fire Prevention Code, and investigate all complaints from the public pertaining to fire hazards.

The Arson Squad, a sub-division of the Fire Prevention Division, is responsible for arson detection. It investigates all large or suspicious fires and files detailed reports pertaining to those incidents. They also work in cooperation with the Police Department preparing arson cases for court.

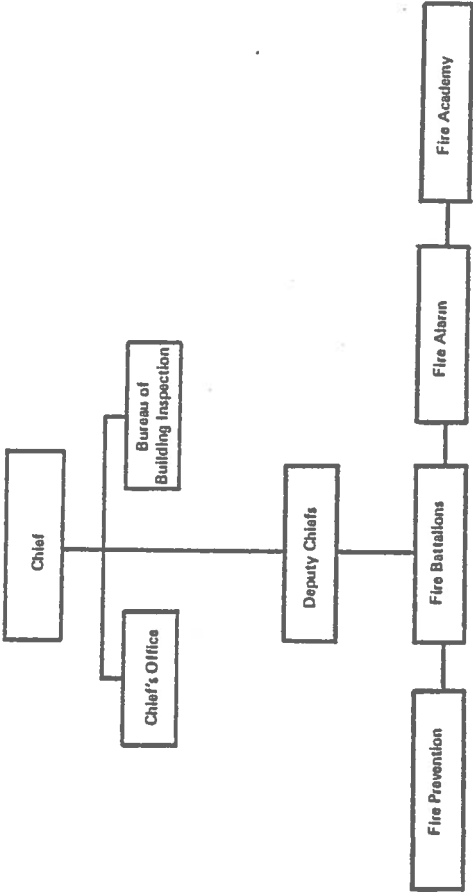

The Fire Chief's Office is the administrative center of the Fire Department overseeing all personnel functions including records, payrolls, and the repair or replacement of all supplies and equipment.

The operation of the Fire Academy is carried out under the auspices of the Chief's Office. The Fire Academy staff trains new firefighters in the basic fundamentals of fire fighting and is responsible for in-service training of the fire companies in team concept fire fighting.

The Bureau of Building Inspection administers and enforces the B.O.C.A. Basic Building and Mechanical Codes with the Pittsburgh Amendments and the Business Licensing Ordinance as well as enforcing the Zoning Ordinance.

The Bureau consists of the General Office, Office of License and Permits, Division of Engineering, Division of New Construction and Division of Code Enforcement.

DEPARTMENT OF PUBLIC WORKS

The Department of Public Works is responsible for maintaining and improving the City's systems of streets, bridges, sewers and cable communications.

The Bureau of Operations is divided into divisions which are responsible for maintaining the City's streets, roads, sewers, signs and communications.

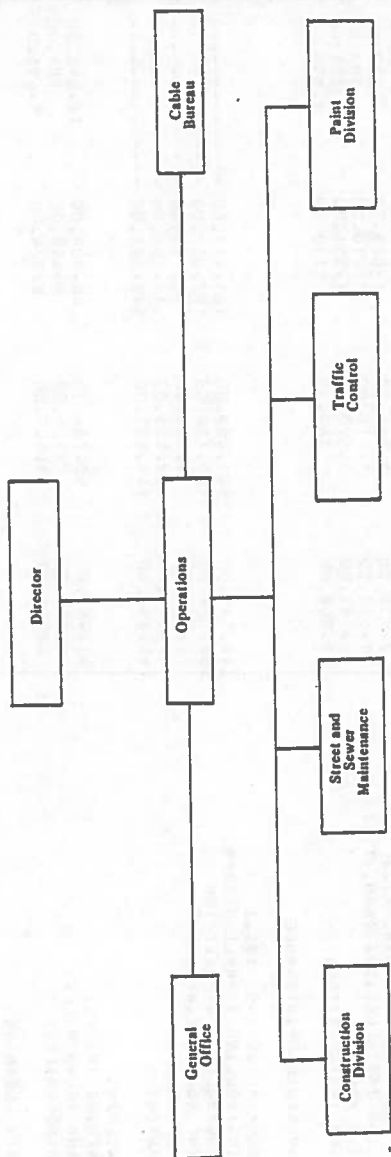

The Construction Division contains special work crews that are capable of performing a variety of special and regular maintenance projects that would be more expensive if performed by contractors. Many small projects can be built quickly by this division in instances where regular maintenance will not suffice.

The Street and Sewer Maintenance Division is responsible for maintaining the City's streets, sewers, and catch basins. This division also supervises the Heavy Equipment Section, Street Repair Program, and part of the Rodent Control Program. The Traffic Control Division maintains the City's traffic control system.

The Painting Division paints all lines on City streets and produces all traffic control signs. It is also responsible for the painting of the City's bridges and a variety of equipment which the City uses and maintains.

The Bureau of Cable Communications regulates the City's cable franchisee.

DEPARTMENT OF PARKS AND RECREATION

Throughout the year, the City of Pittsburgh Department of Parks and Recreation performs a spectrum of services that enable Pittsburghers of all ages to partake in physical, cultural, environmental learning and recreation experiences that add to a richer and fuller lifestyle. The Bureau of Administration, Recreation and Park Maintenance develop, maintain and operate programs and facilities that improve the standard of life for all residents.

Balanced and staffed recreation programs are provided in neighborhood recreation centers, senior citizen centers, public schools and playgrounds. Over 2,500 acres of parklands, including swimming pools, picnic shelters, ballfields, tennis courts, parklets and tot lots are maintained on a daily basis. In addition to community facilities, the Department boasts such special facilities as the Pittsburgh Zoo, Aviary/Conservatory, Schenley Golf Course, Phipps Conservatory and two ice skating rinks.

New programs and facilities are implemented and existing programs expanded in direct response to needs expressed by communities. In addition to an informational effort which maintains open lines of communication between the Department and the public, community meetings are scheduled to provide greater forums for discussion and planning of recreational needs. The Department continually surveys the impact of its programs and facilities while at the same time striving to improve the effectiveness of its operations.

DEPARTMENT OF WATER

The Department of Water is composed of four Divisions which coordinate to deliver a potable water supply, safe for human consumption and in an adequate amount to insure fire protection for the communities supplied.

The Administration Division is composed of three sections:

The Accounting Section is involved with budgeting purchases and payments and maintaining a perpetual inventory control system for the Department's Brilliant Warehouse. The Steno-Clerical Section is responsible for all general clerical activity of the Administrative Offices including typing and maintenance of a Central Filing System.

The Water Assessors Section is responsible for reading all City water meters.

The Distribution Division is divided into two Repair Districts - Mission Yard and Brilliant Yard. Each yard divides equally the Department's water system, and services and maintains their particular area of operation. This includes approximately 1,200 miles of pipeline, 7,500 fire hydrants and 35,000 valves.

The Commercial Section involves the operation of the Central Meter Shop which deals with customer relations, water meter installation/repairs, and an around-the-clock mobil two-way radio room operation. Also, affiliated with this Division is the Cross-Connection Control Prevention Program which serves to eliminate potential contamination of City Water by toxic materials.

The Purification and Pumping Division is composed of the General Office, Maintenance, Treatment and Laboratory Sections. The coordinated efforts of these personnel are responsible for the pumping of raw water from the Allegheny River, treatment, purification, pumping to reservoirs and maintenance of pump stations, reservoirs and storage tanks. The Laboratory is certified by the Environmental Protection Agency in Bacteriology, Wet Chemistry, Inorganic Chemistry, Organic Chemistry and total Trihalomethanes.

For the first four months of 1984, the Department of Water's operations will continue to be funded from the Water Fund. When the Pittsburgh Water and Sewer Authority is created, it will enter into an agreement with the City of Pittsburgh to have the Department of Water continue its operation and maintenance of the water system. Because water revenues will be deposited with the Authority, the Water Fund will be abolished, and the Department's operations will be funded from the General Fund. The Department's direct operating expenses will be reimbursed by the Authority.

Structures or portions of structures, other than those containing residential uses, shall not penetrate an inclined plane determined by straight lines connecting points one hundred and eighty feet (180') above established street grade on Fort Duquesne Boulevard and four hundred and fifty feet (450') above street grade on Liberty Avenue, calculated at the property lines. Those portions of structures containing residential uses only may penetrate this inclined plane providing that any portion of the new structure above the inclined plane achieve a minimum setback of twenty feet from property lines along Fort Duquesne Boulevard but shall not penetrate a second inclined plane determined by straight lines connecting points two hundred and fifty feet (250') above established street grade on Fort Duquesne Boulevard and four hundred and fifty feet (450') above street grade on Liberty Avenue, calculated at the property lines.

(C) In order to reduce the bulk of buildings on the skyline above 300 feet, to preserve views of and from structures in the C5-A and

C5-B subdistricts, to preserve light and air throughout the C5-C subdistrict, and to carry out the intent of the ordinance, the C5 district and the C5-C subdistrict, the total floor area for all floors at or above 300 feet shall be reduced by the following:

Total floor area at or above 300 feet = (base floor area) (number of floors) X (reduction factor from table below)

(1) Base floor area equals average floor area of all floors or portions of floors above 100 feet in height and below 300 feet in height;

(2) Number of floors for purposes of the calculation above shall be those floors or portions of floors at or above three hundred feet which have a floor area no less than fifty percent of the floor area of the floor immediately below. Floors not meeting this requirement may be constructed and shall be counted as part of the total project floor area; however, no floor or floors above a floor not meeting this requirement shall be used in determining the floor elevation of the top floor for purposes of the table below;

(3) The reduction factor used in the calculation

above shall be determined in the table below by the floor elevation of any portion of the top floor as established in (2) above and by the corresponding reduction factor from (4) below:

is erected or enlarged or used, the intensity of development, lot area and required open spaces shall be as prescribed in this section.

A. Maximum floor area ratio:

(1) Monongahela
River Side: 7.5

(2) Allegheny River Side: 7.5 for structures without residential occupancy; 7.5 plus a floor area ratio bonus not to exceed 2.5 for structures with residential occupancy when the total amount of residential floor area equals or exceeds twice the amount of bonus floor area.

B. Minimum lot area per dwelling unit or suite: 110 square feet

An observation deck or viewing area shall be designed to insure the safety of all users. Facilities for the movement of users between the ground floor and the viewing area shall be of sufficient capacity to insure reasonable access to the viewing area. C. Maintenance of urban open space. A legally binding agreement, in a

form acceptable to the City, shall be executed for each urban open space provided and approved under the requirements of this ordinance. This agreement shall include provision for the permanent maintenance of the urban open space by its owner.

C. If usable open space is provided in the form of common open space for the use of all occupants of dwellings within a development or a portion of a development, a legally binding agreement, in a form acceptable to the City, shall be executed for each common usable open space provided and approved under the requirements of this ordinance. This agreement shall include provision for the permanent maintenance of the common usable open space by its owner.

the required open space would result in areas of limited public usefulness, in locations where required open space would be adjacent to existing large open spaces, and in specific locations such as historic districts or other areas where the adopted plans and policy documents applicable to the district indicate that open space is not desirable, the Commission may approve the payment of funds in lieu of the provision of open space, which payment shall be used by the City for the acquisition and development of open space elsewhere in the C5 District. The amount of such payment shall be based upon the value of the land which would otherwise be required to be devoted to open space on the development site plus the cost which would otherwise be incurred by the applicant for development of that space in accordance with the provisions of this section.

The transfer shall effect a binding reduction in the unused development rights under this zoning ordinance otherwise available to the sending lot, to the extent of the rights transferred, for the life of the development on the receiving lot. The transfer shall increase the development rights under this zoning ordinance otherwise available to the receiving lot, to the extent of the rights transferred, for the life of the development on the receiving lot. In the case of a transfer of development rights involving a Historic Landmark or Performing Arts Facility, there shall exist a plan and program for rehabilitation, if necessary, and for continuing maintenance of the Historic Structure or Performing Arts Facility on the sending lot approved by the Commission which provides for continuation of the structure and use upon which eligibility for the transfer of development rights was based for not less than forty (40) years.

6. That the zoning lot to which a transfer is made must have prior to the transfer of development rights a gross allowable floor area under this Zoning Ordinance at least equal to the gross allowable floor area to be transmitted.

reduction in any area of existing open space on the subject lot.

c. If physically feasible, common usable open space for use of building residents shall be provided on the roof.

d. Required windows in every dwelling unit shall have adequate light access.

e. Council shall find in each case that the site and the building proposed for conversion are suitable for residential use, considering the character of adjacent uses, the capacity of and traffic on streets serving the site, the availability of parking facilities for residents, and environmental conditions including noise and the presence or absence of urban or usable open space beneficial to the site.

f. Council may impose conditions on the number and size of dwelling units, the arrangement of entrances and exits, the provision of interior common recreational or service facilities, the utilization of roof top areas for common usable open space and such other matters as are reasonably related to insuring that the proposed conversion will result in the creation of an acceptable living environment.
